GAIN MORE VISIBILITY OF YOUR ASSETS

Save costs with Visimore® Asset Management System. Know exactly how many units are in use and where they are. Manage your assets and make every of them work for you! Visimore® is a complete solution including monitoring and analytics, data management and sensor technology.

KEEP TRACK

Visimore® uses a combination of the most appropriate sensor technologies to gather critical data to drive performance improvements related to your investment in load carriers. As sensor technology evolves Visimore can be configured to use a single or multiple technologies.

Benefits

- Secure operations by minimising asset out of stock
- Optimise your fleet size
- Increase utilisation rate
- Minimise asset losses
- Increase quality of historical data on assets

How it works

- Visimore® tags are added to your assets
- DC network is easy to set up in a matter of hours.
- Assets are tracked both inside your DC with the network and outside by using a mobile application.
- This high quality and timely data is translated into meaningful business intelligence helping you managing your assets.
